

Math 445
Spring 2004
Student Survey

Name: _____

Class: (sophomore, junior, ...) _____ Major: _____

Math courses: List all math courses beyond calculus that you have taken, with the semester taken and grade obtained. Include independent studies if relevant.

For example: Math 215, Fall 2001, B

Reading course on topology with Professor X, Spring 2003, A

CS courses: Similarly for computer science courses.

Describe your experience, if any, with computational packages such as Matlab, Maple, Mathematica, Pari, GAP, Macsyma, ...

For example: "I used Matlab to analyze data in AME300 and I know it well," or

"I made some calculations that I don't understand a couple years ago using Mathematica"

Describe your experience writing computer programs in high-level languages such as Java, C, or Pascal.

For example: "I have written several major programs (more than 1000 lines of code) in C," or

"What's C?"

Have you studied any cryptography before? If so, give a brief summary.
